Rev. J. B. Swanner and Messrs. James Trigg Sanders, Frank Cranford and John Eledge visited the family of W. S. Steward at Caruthersville on Tuesday of last week.

If your paper stops, it is possibly because you have not renewed. We endeavor to give every one ample time to renew, but not hearing from you the paper will surely stop. It is your duty to tell us if you want the paper continued.

### ABOUT OUR SCHOOL.

Conducted by the Lady Teachers.

Parents are earnestly requested to make every effort possible to keep their children in school. We must keep up the attendance, not only for the benefit of the children, but for the uplifting and progress of the town as well.

We must look to the future of our school and do everything in our power to help.

There are a number of children playing on the streets that should be in school. Are you seriously thinking what this means?

The amount of money received for school purposes is governed by the school attendance, and not by the enumeration, as heretofore.

Very few people seem to understand the new laws, although they have been repeatedly published in this paper. Therefore, that the people may be induced to inform themselves, we shall from time continue to publish extracts from the law.

"After these teacher apportionments have been deducted the remainder of the state school fund to be apportioned shall be divided by the total number of days' attendance of all the pupils of the public schools of the state and the quotient thus obtained shall be called a pupil daily apportionment. The amount apportioned to each district shall be determined by multiplying this pupil daily apportionment by the total number of days' at-

tendance of all pupils of each district."

Thus it is seen that our district apportionment depends upon the attendance of the pupils.

Let every parent see that his boy or girl is in school EVERY day; not merely to get the apportionment, but in order to do good work. The pupil who comes a day and misses a day loses all interest in school and consequently fails in his work.

You parents think about this matter and let the result be seen in the school-room.

Dixie Reed paid this office a pleasant call Wednesday, and renewed his subscription for another year.

Lawyer J. E. Duncan and B. A. McKay of Caruthersville attended to legal business in this city Tuesday.

The many friends of Hough Hayes will be surprised to learn of his marriage, at El Reno, Okla., to Miss Martha Lillian Todd. Hough is one of our native boys who is making his way in the world, and we wish him well.

V. N. Webb of Ewing, Ill., who owns considerable farm land in the Concord neighborhood, passed through this city Saturday enroute home. He will return in February and make this county his permanent home.

## BUILD A HOME IN 1912 AND REJOICE

Every anniversary thereafter like a lot of your friends do who gave up the chase for elusive riches long ago and started to build their fortunes in the good old substantial way of our Pilgrim Fathers.

Remember, "A rolling stone gathers no moss," and nothing will stop a family from rolling quicker than a comfortable home. It gives husband, wife and children something to work for and once you get a union of action from the whole family, success is bound to crown your efforts.

We've been preparing for a lot of home building here this year and have a stock of lumber that out-classes in quality even that which your grandfather used when he built his home sixty years ago, and you know that's "going some." Come in and see it.

"THERE'S NO PLACE LIKE HOME."
